

S.Q. TECHNOLOGY GROUP Srl

SECTORS	APPLICATION	TYPE OF EXECUTIONS
FORGING FACTORY	Forging furnaces and normalizing furnaces, natural gas or electric powered	<ul style="list-style-type: none"> ○ Chamber ○ Bell ○ Bogie hearth
BOLT FACTORY	Hardening and annealing furnaces, complete line with washings and quenching bath, natural gas or electric powered Muffle furnaces for test of materials and repair/treatment of workshop tools	<ul style="list-style-type: none"> ○ Conveyor belt, continuous cycle ○ Muffle type
SCREW FACTORY	Hardening and annealing furnaces, complete line with washings and quenching bath, natural gas or electric powered Muffle furnaces for test of materials and repair/treatment of workshop tools	<ul style="list-style-type: none"> ○ Conveyor belt, continuous cycle ○ Muffle type
SPRING FACTORY	Hardening and annealing furnaces, complete line with washings and quenching bath, natural gas or electric powered Muffle furnaces for test of materials and repair/treatment of workshop tools	<ul style="list-style-type: none"> ○ Conveyor belt, continuous cycle ○ Shaker hearth ○ Muffle type
HEAT TREATMENT OF METALS	Hardening furnaces, Normalizing furnaces, Cementation furnaces, Possibility of execution in controlled atmosphere (nitrogen, natural gas, propane etc.), natural gas or electric powered (like F63 Factory)	<ul style="list-style-type: none"> ○ Pit type, ○ Chamber type ○ Conveyor belt ○ Muffle type ○ Bell ○ Bogie hearth
TANNERY	Industrial Dryers for homogeneous drying of skin after chemical treatment.	<ul style="list-style-type: none"> ○ Chamber type
AUTOMOTIVE FACTORY	Hardening furnaces (for gears, shaft, wheels, like F999 Factory), Normalizing furnaces (for car/truck frame, train frame), Cementation furnaces, Possibility of execution in controlled atmosphere (nitrogen, natural gas, propane etc.), natural gas or electric powered. Brazing furnaces for brazing of radiators Alloy/Alloy or steel/steel (like F360 Factory). Muffle furnaces for test of materials and repair/treatment of workshop tools Industrial Dryers for homogeneous drying and heating of pad breaks	<ul style="list-style-type: none"> ○ Pit type, ○ Chamber type ○ Conveyor belt, continuous cycle ○ Muffle type ○ Chamber type
WHITE GOODS FACTORY	Brazing furnaces for heat exchangers Copper/Copper or Copper/Steel or Steel/Steel (like F360 Factory).	<ul style="list-style-type: none"> ○ Conveyor belt, continuous cycle
