

SQTECNOLOGY

BUSINESS PRESENTATION

«TAILOR – MADE» SERVICE

DESIGN

Mechanics, Electromechanics and Software Automation
Specifically based on customer needs
Redesign where necessary during the project phases

PROJECT MANAGEMENT

Basic and detail engineering
Scheduling (Gantt) and interdisciplinary coordination
Start-up and management of the construction site
Testing

MAINTENANCE AND AFTER SALES SERVICE

Scheduled and extraordinary plants maintenance
Telephone after-sales service and remote assistance
Qualified and trained staff
Spare parts and warehouse management

PRODUCTS AND PLANTS

SKILLS

Starting from a multidisciplinary know-how on

- Thermoregulation
- Manipulators
- Pneumatics
- Hydraulics
- Automation

PLANTS SIZE

From single machinery (for example a chamber furnace) up to large plants (for example heat treatment lines)

NEW / REVAMPING

New built systems and systems revamped from a mechanical, electrical and software automation point of view

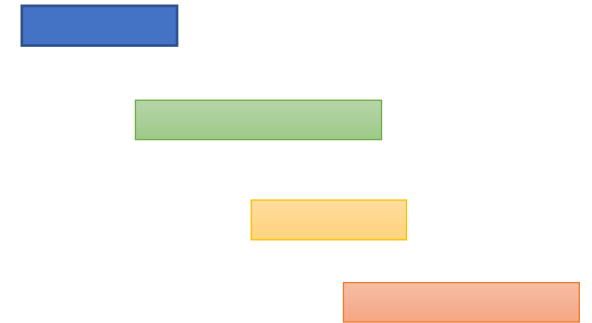

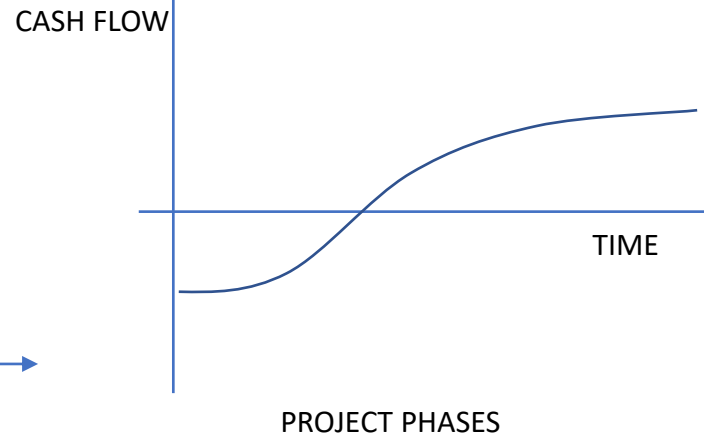

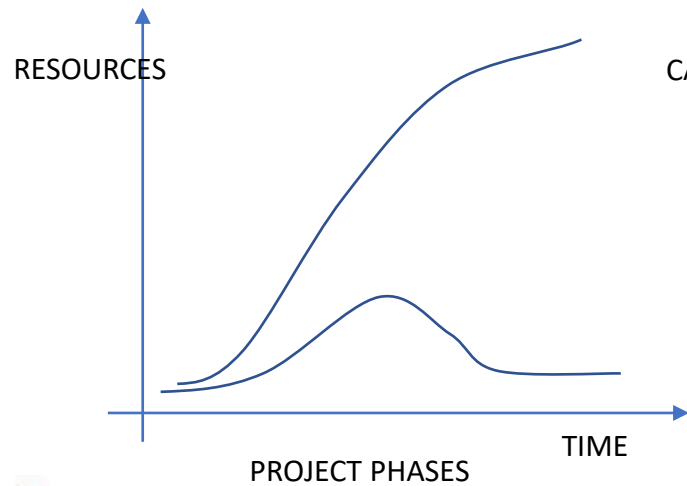

PROJECT MANAGEMENT

BASIC
ENGINEERING

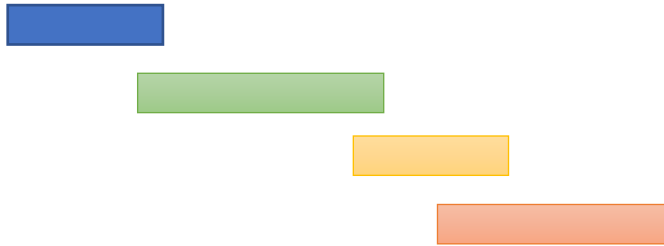

FEASIBILITY STUDY AND SCHEDULING

USE OF RESOURCES AND CUMULATED «S» CURVE

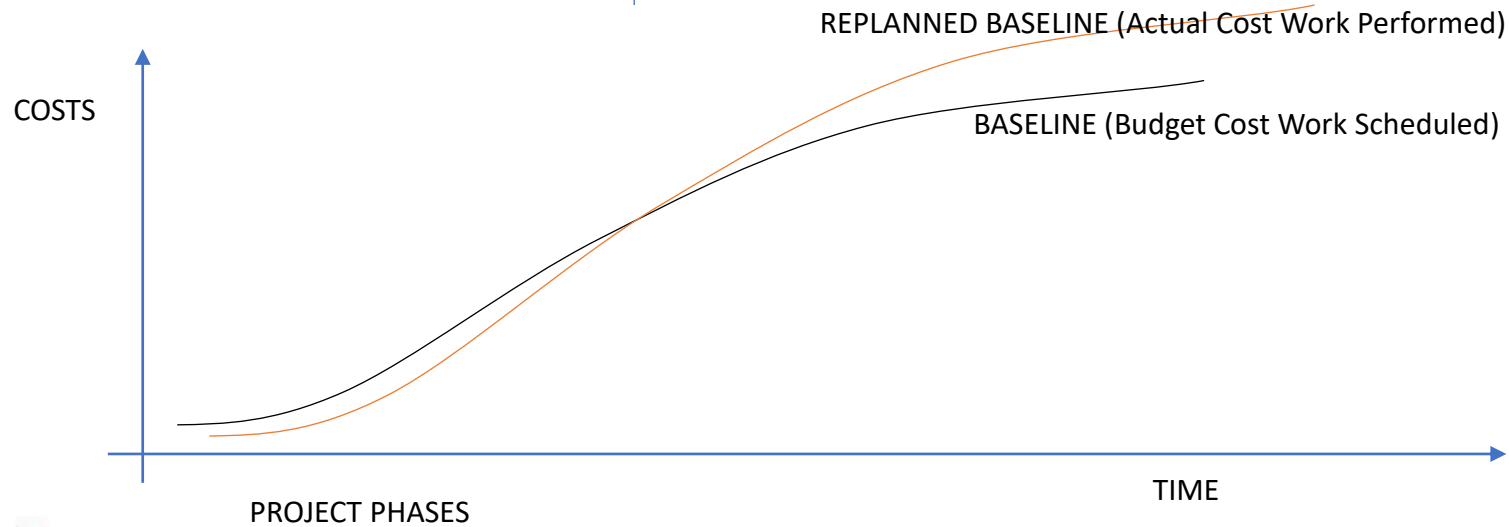

BUILDING SITE MONITORING

PROJECT CONTROL AND MANAGEMENT

TIMES CONTROL

COSTS CONTROL

QUALITY AND SAFETY SYSTEMS

ISO 9001:2015 CERTIFICATION FOR QUALITY SYSTEM

OHSAS 18001:2007 FOR SAFETY SYSTEM
